

# Outdoor Play Policy

At Little Dragon's Day Nursery, we recognise the importance of daily outdoor play and physical development and are committed to ensure all children have daily access regardless of their age or stage of development. We provide an inclusive outdoor play environment with areas for non-mobile children to freely explore. We make reasonable adjustments where required, in line with the Equality Act 2010. We go out to play with all children in all weathers (unless it is deemed unsafe).

We understand the vital role that learning outdoors has on children's learning and development as well as the importance of regular access to outdoor play in order to keep fit and healthy, develop children's gross and fine motor skills, experience learning in a natural environment and access sunlight in order to absorb vitamin D more effectively. We also refer to the Chief Medical Officers guidance on physical activity.<sup>1</sup>

The outdoor areas, both within the nursery grounds, our privately owned field located on Bell Lane and in the local community, have a wealth of experiences and resources, which help children to learn and develop in a variety of ways, including independence, exploration and investigative skills, risk taking and self-esteem, all of which support children to develop skills now and for the future.

We take reasonable steps to ensure the safety of children through risk assessments whilst balancing the benefits to learning through providing an element of 'risky play.' This type of play allows children to explore and find their own boundaries in a safe environment with supportive practitioners. Staff are informed of the importance of safety procedures and are trained appropriately to ensure these procedures are followed effectively.

We ensure outdoor play is adequately supervised and we have robust safety checks in place, including regular head counts. To ensure appropriate adult supervision of the children at all times whilst outside, staff should communicate with those inside using the walkie-talkies.

We obtain parental permission to take the children out of nursery during our nursery registration process. This includes short outings into the local community such as to our Little Dragon's field, the park, shop and church to name a few. There is more information in the Visits and Outings Policy.

We plan all outdoor play opportunities and outings to complement the early years curriculum. This includes providing children with purposeful activities and quality resources that support and follow their individual interests and the seven areas of learning and development. We plan both adult-led and child-initiated opportunities to enable children to learn and practice new skills, knowledge and behaviours. Where possible and in line with the children's needs, we will also often have snacks and meals outdoors and some children will sleep outdoors (see Sleep policy). Health and safety considerations such as seating and hand washing facilities are considered whenever snacks and meals are eaten outdoors.

Where activities take place away from the setting (e.g. our Little Dragon's Field) then a nursery mobile phone, walkie talkies and first aid kit will be taken to ensure the safety of children at all times. A trained paediatric first aider will be present when children are away from the main setting.

We use this policy alongside the following policies to ensure the safety and welfare of children throughout their time outside:

- Health and safety – general policy
- Extreme Weather Policy
- Caring for babies and toddlers
